2026 Keynote Speaker Garry Golden

Garry Golden is a professionally trained futurist who writes, speaks, and consults about the driving forces that will shape society and business in the 21st century. His uncanny sense of what will hit—and what won't—can be seen in FutureThink's research and heard in his international keynotes and corporate change leadership seminars.

Garry attended the University of Wisconsin-Madison and received his Futures Studies degree from the University of Houston and serves as Adjunct Lecturer on the Future of Energy and Environment for the University of Houston. He has served as the principal trainer for Envision's Foresight Workshops for nearly ten years and currently resides in Brooklyn.
